CPI's 5 Core Business Drivers

- 1 Innovation** – A good idea can be great, but innovations that keep coming make a company exceptional. CPI's industry firsts, *Triple Split Technology™*, Pre-Treat pocket mesh backed mops, dynamic dusters, eSeries™, i-mop™ and many more useful tools has made CPI the leader in microfiber and cleaning equipment. Through innovation CPI brings the customer tools to reduce workman's' comp claims and reduce dollars in their budget.
- 2 Quality** – Unique fiber manufacturing processes provides exceptional life to CPI's microfiber products. CPI emphasizes high quality engineering in all of its products; illustrated in the continued long life of all of the cleaning accessories and carts. CPI stands behind their products with industry leading warranties and service.
- 3 Microfiber Productivity Focused** – CPI is a microfiber company focusing on improving productivity through our 4D Cleaning Systems™. CPI has microfiber and cleaning machines to help improve productivity through innovative tools and processes.
- 4 Training** – CPI has exceptional education programs geared toward all levels of cleaning and service. The unique CPI Bello Training™ provides everything from product, process and sustainability to provide a healthier building with increased productivity.
- 5 People** – Good people make a difference, we listen to our distributors, end users and everyone in between, to continue providing the best products and services. Our team of quality people, not only innovate and produce quality microfiber products, but also provide exceptional service and throughout the life of the CPI products.

Creative Products International, Inc. or CPI is a microfiber manufacturer, focusing on the production of high quality fibers, components and associated accessories for the commercial cleaning industry. The company has proven to be an innovator in the industry through several major microfiber industry staples. Such items as the WAVE microfiber material revolutionized the industry through long lasting fibers proven in the commercial laundering.

CPI has proven to be the leader in the microfiber industry through such major mile stones as the following:

eWAVE™ microfiber mop with mesh backing - changed the game in the microfiber Pre-Treating System

eCART™ & i-Cart™ – Taking the cleaning system to a new level by revolutionizing microfiber cart systems, a bold strong move in modular carts.

Pocket Mop System – Systematically changed the way people cleaning through pre-treating mops and touch free operation. Uses 50% less solution.

DUO Bucket – CPI has even taken old technology like the bucket and wringer and made it better with the double bucket system of the DUO and DB1's. Molded in divider that uses less solution with superior cleaning.

WAVE TRIO Split Technology™ – incorporates a unique process of fiber construction which holds its shape throughout the life of the product. From dynamic dusters to wet application mops, the WAVE products revolutionized the microfiber industry by holding more solution and removes more contaminants.

eSeries™ Cleaning System – the eMINI cart was designed as part of this series to focus the worker on high performance cleaning and provide all the necessary tools for CPI's 4D Cleaning™ System.

Together We Can Do More.
We Are A Team, Come Join Us.

CPI's 4D Cleaning™ System

Why We Clean – On the surface, most people clean for appearances. So that at first glance, everything “looks” clean. At CPI, we take that to the next level. We clean for appearances, for health and for the environment. All while saving you time and money.

How We Clean – Our 4D Cleaning™ System trains customers how to properly clean an area, literally, from top to bottom.

Designed With You In Mind – Our products are designed to work together – *In A System* – to clean more effectively. This results in making the “task of cleaning” easier for the end user. Each System and tool has been carefully engineered to accomplish specific tasks to make the most of a worker's time and effort.

Nothing is more convincing, and provokes more interest, than the demonstration. Put the product in the customer's hands. From the beginning the **CPIeBAG** sets the tone of the presentation with an impressive display of CPI product samples.

Bello Training™ System

Comprehensive Program – Over a year of planning has gone into the *CPI Bello Training™ System*. Each of the five Training Modules go into specific details covering a broad range of topics.

Personal Attention – We are with you every step of the way. When you purchase CPI products you are opening the door to be a part of a comprehensive training program. We want to make sure you and your staff are getting the most out of our products and Systems. To make that happen we have developed the *CPI Bello Training™ System*.

Follow Up – We want to make sure you're satisfied. A crucial part of the *CPI Bello Training™ System* takes place long after the training is over.

We've come to learn the feedback months after training brings up great dialog. The Follow-up is in place to ensure that there is a high level of confidence in the use of CPI Products and Systems.

Sales & Marketing Support

Experienced Professions – CPI boasts a diversely experienced staff that's dedicated to your success. We've always felt that your questions, concerns and ongoing needs are always well served with personal attention. CPI's customer service and qualified Sales Professionals always strive to exceed your expectations.

Product Literature – Available and at your disposal is an ongoing interactive product library consisting of:

- Product Specific Literature
- Process Specific Literature
- Sales Support worksheets
- Cleaning Guides & Posters
- Every section of this and other catalogs available to download from our website

Video Library – We are constantly adding video to help educate everyone on the benefits of our products and Systems. These videos include the practical application and use of the products as well as additional information boasting benefits such as; water conservation, ergonomic benefits, cross contamination, CPI product vs. our competitors products and industry specific uses.

Exceptional Online Presence – We take great pride in using technology to our benefit. As our website continues to evolve we will always make sure our customer's valuable input is a key part of that direction.

Demo Duffel Bag
PART# CPIeBAG

Demo PreTreat Bags
PART# CPIeBAG WET

« The CPIeBAG Benefits

- Packed with a variety of over 50 CPI products
- Heavy duty construct. Stainless steel clasps and zippers, reinforced stitching and tons of storage
- 3 additional poly-zipper bags for quick access to products and to help stay organized.

System Analysis

CPI will analyze your facilities current cleaning procedures and recommend an approach towards an efficient and environmentally sound solution. We focus on these four areas:

Employees

Reduce fatigue during cleaning

Customers

Provide a cleaner, healthier environment for your customers

Environment – Reduce water and chemical usage by using microfiber

Health – Provide a cleaner environment with our *4D Cleaning™ System*.

Annual Savings Using CPI Microfiber Systems vs. Traditional Cleaning.

Budget Item	Annual Amount Saved
Chemical Savings	\$211,572
Water Savings	\$161,398
Labor Savings	\$23,288
Total Savings/Year	\$396,257

Amount saved every year

Equipment for entire district - Total Schools = 88	
Total equipment cost	\$375,681

Return on investment — .9 years or 11.4 months

Every facility wants to become 'Green' and what CPI provides is a method toward becoming Environmentally focused through our *4D Cleaning™ System* and *CPI Bello Training™ System*. Through the evaluation process each facility will look at the cost of implementation.

There are three things that we can control for a facility using the afore mentioned Systems. They are the Environment, the resulting Healthy living and the Cost.

Most facilities look at cost first and then what they can get for what they have to spend. Our Systems look at the environment first. In all cases using the program will save money for a facility. An important aspect to keep in mind is that "going Green" is not an event, it is a journey. CPI helps each facility on their journey.

What You Can Expect

Increase cleaning effectiveness with the use of *4D Cleaning™ System* and *CPI Bello Training™ System*.

- Improve air quality by picking up and removing microscopic particles
- High performance cleaning fibers removes bacteria

Ergonomic enhancement

- Reduce employee injuries by eliminating the use of conventional buckets and wringers
- No lifting heavy buckets full of water and chemical

Prevent cross contamination

- A Color Coded Process insures proper compliance
- *4D Cleaning™ System* cleaning provides a healthier facility

Reduce chemical and water consumption

- Use less chemical by utilizing the Pre-treated cleaning process
- Use less water reducing environmental conservation concerns
- Less water and chemical consumption means more for your bottom line and benefits our environment

Cleaning Method	Traditional	4D Cleaning™ System
Wash Boards	5 minutes	3 minutes
Clean Desktops	15 minutes	2 minutes
Dust Mop	5 minutes	0 minutes
Wet Mop	15 minutes	8 minutes
Total	40 minutes	13 minutes

Proven Results!

CPI has taken proven steps toward helping facilities becoming Environmentally Sustainable through our Systems and Training. This is accomplished by:

- Providing a healthier living/working area through *4D Cleaning™ System*
- Reducing chemical and water consumption
- Reducing overall cleaning cost through the *CPI Bello Training™ System*

What is it?

The PreTreated System™ is a well thought out array of tools that seamlessly work together to make cleaning tasks efficient and productive. Designed for consistent results and built in quality control for workers and supervisors.

The PreTreated System Benefits

- ◆ Everything you need to clean is in a condensed and accessible system
 - ◆ A simple process ensures efficient results
 - ◆ Promotes a healthy work and living environment
 - ◆ Uncomplicated and easy to use
 - ◆ Lightweight and ergonomic design causes less stress than traditional mops and bucket
 - ◆ Unique design allows for easy access in congested areas
 - ◆ It saves money
 - ◆ It requires very little water and chemicals
 - ◆ Washable and extremely durable
- *Patent Pending

How Do I use It?

This process allows you to conserve water and chemical usage. Here are the steps to PreTreat microfiber mops using the CPI PreTreated Systems™.

Step 1

Measure the proper amount of cleaning solution. See solution table on next page.

Step 2

Pour measured cleaning solution over mops.

Step 3

The eWAVE™ mops are ready to use, all other mops flip over sealed bucket and let it sit for a minimum of 15 minutes.

Step 4

Collapse frame and line up edges with mop pockets and press firmly to 'snap' frame into mop.

Step 5

Clean floor, walls or other required surfaces.

Step 6

Push button on frame to release bottom of mop. Place mop in dirty bucket.

eDOUBLE

PART# eDOUBLE B/R/G/Y

Double sided microfiber cleaning cloth. One side 400g heavy duty split microfiber (light gray) opposite side fine, non-streak microfiber (lime green), designed to fit the CPI PTMINI buckets.

Colors:

Blue(B), Red(R), Green(G), Yellow(Y) trimmed edging.

Spec: 8" x 10" cloths with Double Stitched edging with polytape ribbing and TRIO SPLIT Technology™

Packaging: 48/polybag - 192/case

eWAVE™ II

PART# eWAVE18P B/R/G/Y

Used for low to heavy soil levels and all applications CPI's Premium 18" pocket mop with mesh backing for quick cleaning solution saturation times. Solid color exclusive CPI WAVE™ microfiber material. Designed for Pre-Treating in CPI 4-D Cleaning Systems™

Colors:
Blue(B), Red(R), Green(G), Yellow(Y)

Spec: 6" x 18" mops with TRIO SPLIT Technology™

Packaging: 12/vacuum packed polybag
48/case ~ Patent Pending

ePOCKET

PART# ePOCKET

Fit CPI 18" pocket mops. 360 degree swivel, solid core frame construction. Frame collapses for complete touch free operation.

Spec: 16" x 5"

Packaging: 1/polybag - 12/case

eHANDLE

PART# eHANDLE72
eHANDLE48

Heavy Duty aluminum telescopic handle. Lime green removable grip. Fits ePOCKET, eTROWEL, TAB, HOOK, WALLWASH & MFLEX frames. (Interchangeable handle sets designed for color coding)

Spec: Telescopic lengths
#eHANDLE72 = 39.5" to 72"
#eHANDLE48 = 26.5" to 48"

eWALL™

PART# eWALL

eWall™ frame boasts 360° swivel frame, with pocket mop functionality. Color coded hand grip, built in scraper and black light function for detecting germs.

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

eHANDLEGRIPS

PART# eHANDLEGRIPS

Designed for eHANDLE. Soft construction for ergonomic operation, helps prevent handles from slipping against a wall. Used for color coding.

(1 of each color per set)

Colors:
Blue(B), Red(R), Green(G), Yellow(Y)

Packaging: 1/polybag - 1 set/polybag

eTROWEL™

PART# eTROWELb (blacklight)
eTROWELw (LED white light)

The first trowel with pocket mop functionality. Color coded hand grip, built in scraper and black light function for detecting germs.

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

eSNOW, eSCRUB, eGLASS

PART# eSNOWB10,
eSCRUBB10, eGLASSB10

Used for low to medium soil with these pads are specifically designed for the CPI eTROWEL with quick release. See page 26 for details.

eSCRUB = color tabs

Spec: 5" x 10" pad

Packaging: 12/vacuum packed polybag - 48/case

eTROWELPAD

PART# eTROWELPAD B/R/G/Y

Used for low to heavy soil levels. Specially designed for the CPI eTROWEL with quick release. Features CPI's premium eWAVE™ mop mesh backing for quick cleaning solution saturation times. Exclusive CPI WAVE microfiber material. Designed for Pre-Treating in CPI 4-D Cleaning Systems™.

Colors:
Blue(B), Red(R), Green(G), Yellow(Y)

Spec: 5" x 10" pad with TRIO SPLIT Technology™ and mesh backing

Packaging: 12/vacuum packed polybag - 48/case

PTBUCKET

PART# PTBUCKET B/R/GY/GN

6 gallon (20 Lit.) bucket w/ sealing lid, graduation marks in gallons & liters, carrying handle, optional casters. Inside dimension: 20" x 8" x 10.5" H

Colors: Blue(BL), Red(RD), Green(GN), Gray(GY)

Packaging: 10/case

PTMINI

PART# PTMINI B/GY/GN/R

3.5 gallon (13 Lit) bucket with sealing lid. Graduation marks in gallons & liters. Carrying handle.

Colors: Blue(BL), Red(RD), Green(GN), Gray(GY)

Spec: 12" x 9" x 10"H, Inside dimensions

Packaging: 10/case

PreTreat BUCKET

PART# ANTA125 B/Y/G/R

1.5 gallon (6 Lit.) bucket w/ carrying handle, graduation marks.

Colors: Blue(B), Red(R), Green(G), Yellow(Y)

Packaging: 10/case

PTWHEELS

PART# PTWHEELS

2" caster wheels, fits #PTBUCKETS (set of 4).

Packaging: 25/case

eMINI

PART# eMINI

Heavy duty metal dolly construction. 2 - 6 gallon buckets and sealing lids (1-lime green, 1-gray). Fixed wheels. 5 handle holders. Wet floor sign holder (sides). Black w/ lime green rubber coated push handle

Bucket Colors: Buckets available in; Blue(B), Red(R), Gray(GY), Lime Green(GN)

eMINIXL

PART# eMINIXL

2 tier, heavy duty metal dolly construction. 1 - 6 gallon bucket and sealing lid (lime green). 2 - 3.5 gallon buckets and sealing lids (1-lime green, 1-gray).

1 Bottle tray. Caster wheels in front — fixed wheels in back. Washable, heavy vinyl bag. 5 handle holders. Wet floor sign holder (sides). Black w/ lime green rubber coated push handle.

Bucket Colors: Buckets available in; Blue(B), Red(R), Gray(GY), Lime Green(GN)

eMINIXXL

PART# eMINIXXL

2 tier, heavy duty metal dolly construction. 2 - 6 gallon buckets and sealing lids (1-lime green, 1-gray). 2 - 3.5 gallon buckets and sealing lids (1-lime green & 1-gray). Caster wheels in front — fixed wheels in back. Washable, heavy vinyl bag. 5 handle holders. Wet floor sign holder (sides). Black w/ lime green rubber coated push handle

Bucket Colors: Buckets available in; Blue(B), Red(R), Gray(GY), Lime Green(GN)

eMINISMALL

PART# eMINISM

Hanging 6 gallon bucket and sealing lid. Fits on front of janitor cart

(hangs from front of shelf)

Bucket Colors: Buckets available in; Blue(B), Red(R), Gray(GY), Lime Green(GN)

Used for low to medium soil levels and all applications. Economical combination microfiber mop with blue nap pile and outer CPI WAVE fringe. Pocket backing.

Color: ■ multi-color blue microfiber.

Spec: 6" x 18" mop with TRIO SPLIT Technology™

Packaging: 12/polybag - 48/case

Visit www.creativeidea.net for more details

What is it?

The DB1 System is used for light to medium soil and an average size surface area. The unique advantage of the DB1 is that it's utilizing a flat TAB mop. In contrast to the DUO and TUBE Mop, a TAB mop can first clean counter tops and vertical surfaces THEN move it's way down to the floor and other horizontal surfaces.

The DB1 System Benefits

- ◆ Consistent results with roller wringer.
- ◆ The roller wringer allows the same moisture level with all workers
- ◆ Microfiber TAB mop does not stink or bio-degrade like traditional mops
- ◆ Better surface contact - Picks up the small particles you can't see
- ◆ Designed to be light weight, can carry up steps (without water) easier than traditional buckets

Ergonomic designed handle and roller wringer

One piece, divided bucket with a solid wall divided bucket

3 gallon clean water side and 4.5 gallon dirty water side.

Durable vinyl coated swivel casters

100% Microfiber material

« CPIs DB1 System is designed to used with TAB Mops

How Do I use It?

Step 1

Fill solution compartment with cleaning agent (3 gallons).

Step 2

Fill rinse compartment (wringer side) 1/3 full with clean water (1.5 gallons).

Step 3

Push tab of mop through open end of tab opening on frame, press firmly to close. Collapse frame and repeat for other tab.

Step 4

Submerge mop in rinse compartment through center of wringer. Agitate to loosen any soil.

Step 5

Wring out mop by placing frame horizontal outside of wringer with mop hanging inside, and then push down on wringer handle. Pull back up on wringer handle to release mop.

Step 6

Submerge mop in clean solution compartment. Repeat step 5. Wring out mop.

Step 7

With frame collapsed, hold 6 inches off floor, twist handle 1/4 turn and let mop fall freely to floor. After mop has opened on the floor, press firmly down on handle to lock frame in place. Clean floor.

Step 8

Step on pedal to collapse frame. Repeat steps 4 through 7 until floor is clean. When finished with job, remove mop by pulling on tabs. Launder or rinse mop.

What is it?

The DB2 System is used for heavily soiled and large surface areas. The unique advantage of the DB2 is that it's utilizing a flat TAB mop with large capacity buckets. In contrast to the DUO and TUBE Mop, a TAB mop can first clean counter tops and vertical surfaces THEN move it's way down to the floor and other horizontal surfaces.

The DB2 System Benefits

- ◆ Greater capacity
- ◆ Cleans more square footage than single buckets
- ◆ Consistent results with the roller wringer
- ◆ Easy to change the clean and dirty water buckets
- ◆ Multiple storage areas

CPI's DB2 System is designed to used with TAB Mops >>

How Do I use It?

Step 1

Fill solution compartment with cleaning agent (6 gallons).

Step 2

Fill rinse compartment (wringer side) 1/3 full with clean water (2 gallons).

Step 3

Push tab of mop through open end of tab opening on frame, press firmly to close. Collapse frame and repeat for other tab.

Step 4

Submerge mop in rinse bucket in front of the wringer. Agitate to loosen any soil.

Step 5

Wring out mop by placing frame horizontal outside of wringer with mop hanging inside, and then push down on wringer handle. Pull back up on wringer handle to release mop.

Step 6

Submerge mop in clean bucket (green). Repeat step 5 - wring out mop.

Step 7

With frame collapsed, hold 6 inches off floor, twist handle ¼ turn and let mop fall freely to floor. After mop has opened on the floor, press firmly down on handle to lock frame in place. Clean floor.

Step 8

Step on pedal to collapse frame. Repeat steps 4 through 7 until floor is clean. When finished with job, remove mop by pulling on tabs. Launder or rinse mop.

Easily clean around and under Furniture.

Lightweight, ergonomic designs developed for the workers wellbeing and safety.

Previously unsafe tasks now become safe and routine.

Now clean in areas you never before considered due to lack of time or inadequate equipment.

Increased Profitability

CPI's 4D Cleaning™ Systems are uniquely designed to clean with a **high level of efficiency** proven to save **time** and **energy** in day-to-day cleaning procedures.

AFTER
BEFORE

The Right System For Every Task.

eMINI™

- ◆ For light to medium soil levels
- ◆ Simple process ensures efficient results
- ◆ It requires very little water and chemicals
- ◆ Lightweight, ergonomic design

eCART™

- ◆ Designed for pretreated microfiber
- ◆ User chooses the design and function based on specific needs.

DB1

- ◆ Used for medium to heavily soiled areas
- ◆ Lighter than most traditional buckets and wringers
- ◆ Consistent results with roller wringer

DB2

- ◆ Used for heavily soiled areas
- ◆ Large water and solution capacity allows worker to clean sizable square footage areas

DUO

- ◆ Used for heavily soiled areas
- ◆ TUBE Mops release dirt far better in the rinse cycle
- ◆ Solid, quality construction
- ◆ Greater capacity

What is it?

CPI microfiber TUBE Mops and DUO bucket are specifically designed for large surfaces areas and or heavily soiled floors. This large capacity bucket ensures your water and cleaning solution stays cleaner longer and is extremely easy to maneuver.

The DUO Benefits

- ◆ TUBE Mops release dirt far better in the rinse cycle
- ◆ Clean side of bucket water stays clean unlike a traditional one compartment bucket
- ◆ Larger capacity 9.5 gallons, more productive and less trips back to janitors closet
- ◆ Easy to maneuver and good quality
- ◆ TUBE Mops don't stink or bio-degrade like traditional mops

CPIs DUO Microfiber Bucket is designed to used with TAB Mops or TUBE Mops >>

Reinforced Exterior Walls

Extra large down press to accommodate TUBE mops

Stainless steel ergonomic handle

Solid Inside Divider

Solid Inside Divider
Keeps the dirty water and cleaning solution completely separate.

4.5 gallon clean water section and 5 gallon rinse water section.

Metal carry handle

Tremendous Stability
Extra wide ball bearing 3" Swivel casters

How Do I use It?

Step 1

Fill rinse compartment (under wringer) with 2 gallons of clean water.

Step 2

Fill clean compartment (front of bucket) with 4 gallons of diluted cleaning solution.

Step 3

Dip CPI microfiber tube mop in rinse compartment.

Step 4

Wring out mop. Dip mop in clean compartment. Wring out the mop one more time.

Step 5

Clean the floor.

Step 6

Repeat steps 3-6 until desired area is cleaned.

Microfiber TUBE Mops

The Worlds Most Innovative Microfiber Cleaning Systems

DUO

PART# DUO (lime green)
DUO B (blue)

Divided bucket and downpress wringer with 5 gallon rinse water and 4½ gallon clean water capacity. 3" swivel casters. features: pole holder, carry handle and front pour spout. Wringer insert included for flat TAB mop use.

Colors: ■ ■

Sold separately: Rinse water empty valve (optional #DUOVALVE)

Scrub Headband Microfiber Tube MOP

PART#
MOPL (blue)
MOPM (green)
MOPS (yellow)

Microfiber tube mop, 7" scrubber headband, tubular microfiber construction. Color coded tailbands. Lint-free design.

Microfiber colors: ■ ■ ■

Spec: 100% Microfiber constructed tubes (lint free with stitching inside of tube) with polyester scrubber headband.

All Tube Mop Headband & Tailband colors:

	MOPS GRN	green mop - yellow band
	MOPS ORG	orange mop - yellow band

Microfiber tube mop with mesh headband and tubular microfiber construction.

Microfiber colors: ■ ■ ■

Spec: 100% microfiber flat tube construction, poly headband.

Packaging: 12/case

Yolk Style Mop Holder & Handle

PART# MOPHOLDER
PART# AHANDLE60

Stainless steel yolk riveted onto ABS plastic mop holder with threaded connector and locking pin to fit 60" one-piece rigid aluminum mop handle.

Aluminum handle, 60", one piece, fits POCKET, TAB, HOOK, WALL WASH & MFLEX

Spec: Plastic construction with stainless steel bail wire and holding clip.

Packaging: 12/case

Clamp Style Mop Holder

PART# MOPJAWS

Heavy duty ABS engineered plastic clamping style mop holder for fitting thick headbands folded in half. Tough screw-down threaded collar collapses the jaws and gripping teeth onto headband for secure and tight fit. Threaded connector and locking pin mounts onto yellow fiberglass handle with rubber, non-slip grip.

TRIO
SPLIT
Technology

MDUSTMOP

PART#
MDUSTMOP18 MDUSTMOP24
MDUSTMOP36 MDUSTMOP48
MDUSTMOP60 MDUSTMOP72

Microfiber dust mop with debris channel design, 1.5" loop pile, 5" slip pocket backing (fits 5" wire frame).

Microfiber color: ■■■■■

Spec: Polyester coated backing material with double stitched banded edging. WAVE microfiber construction with TRIO SPLIT Technology™

Packaging:
18"-24" = 12/polybag - 48/case
36" = 12/polybag - 24/case
48" = 6/polybag - 24/case
60" = 6/polybag - 18/case
72" = 1/polybag - 12/case

DFRAME

PART#
DFRAME18 DFRAME24
DFRAME36 DFRAME48
DFRAME60 DFRAME72

Metal wire frame that fits MDUSTMOPs 18" – 72". Full weld construction. Zinc plated. Quick connect center pivot.

Packaging: 12/case

Spec: 18" – 72" x 5"

ERGO Dust Mop Handle

PART# DHANDLE60

Clip-on dust mop handle, aluminum with ergonomic foam hand grip, fits wire dust mop frames.

Colored handle grip and trim: ■ black grip

Spec: Aluminum handle with zinc plated quick connect fitting, foam ergo center grip, plastic end hand grip.

Packaging: 1/polybag - 20/case

Wood Handle

PART#
9000

Clip-On wooden dust mop handle with chrome quick connect clip-on bracket.

Packaging: 12/case

Fiberglass Handle

PART#
9000YELFIB

Clip-On fiberglass dust mop handle with chrome quick connect clip-on bracket.

Packaging: 12/case

Microfiber Dusters

The Worlds Most Innovative Microfiber Cleaning Systems

MFLEXPK2

PART# MFLEXPK2

Flexible duster with removable 12" handle (may attached to telescopic handles). Low nap removable microfiber sleeve (may be laundered).

Handle and Microfiber color:

Spec: 12" removable handle and 100% microfiber sleeve with TRIO SPLIT Technology™

Packaging: 1/polybag - 25/case

MSLEEVE

PART# MSLEEVE

Replacement microfiber sleeve for MFLEXPK2.

Microfiber color: ■

Spec: 100% microfiber sleeve with TRIO SPLIT Technology™

Packaging: 1 polybag - 50 per case

MFLEXWAVE

PART# MFLEXWAVE

Flexible duster with removable 12" handle (may attached to telescopic handles). Removable WAVE microfiber 2" long strands sleeve (may be laundered).

Handle and Microfiber color:

Spec: 12" removable handle and Web backing for easy wash out in laundering. 100% microfiber sleeve with TRIO SPLIT Technology™

Packaging: 1/polybag - 25/case

MWAVE

PART# MWAVE

Replacement microfiber WAVE sleeve for MFLEXWAVE.

Microfiber color: ■■■■

Spec: Web backing for easy wash out in laundering. 100% microfiber sleeve with TRIO SPLIT Technology™

Packaging: 1/polybag - 50/case

WAVEDUST

PART# WAVEDUST

Duster with WAVE material, extension handle (34" to 51"). Head is removable and Launderable WAVE microfiber.

Handle and Microfiber color:

Spec: Aluminum extension handle (34" to 51"), web backing for easy wash out in laundering and microfiber with TRIO SPLIT Technology™

Packaging: 1/polybag - 25/case

WAVEDUSTHEAD

PART# WAVEDUSTHEAD

Replacement head for WAVEDUST with 2 snaps for attaching to handle.

Microfiber color: ■■■■

Spec: Web backing for easy wash out in laundering and microfiber with TRIO SPLIT Technology™

Packaging: 1 polybag - 50 per case

12" ~ 250gram

PART# MF12 YEL/BLU/RED/GRN

General purpose 100% microfiber cloth.

Colors:  Yellow(YEL), Blue(BLU), Red(RED), Green(GRN)

Spec: 12" x 12", 250gram weight. Double Stitched edging with polytape ribbing.

Packaging: 12/polybag - 288/case

MOPJAWS

ATHANDLE

PART# ATHANDLE

Aluminum telescopic handle with gray grip. Fits POCKET, ePOCKET, TAB, HOOK, WALLWASH & MFLEX frames

Colored handle grip and trim: ■

Spec: 39.5" to 72"

Packaging: 1/polybag - 12/case

Extension Handles

PART#
ATHANDLE180 (15')
ATHANDLE235 (20')

Aluminum Telescopic Handle with removable pole section and collars. Fits POCKET, TAB, HOOK & WALLWASH frames, includes #ADAPTOR to fit MFLEX & window washing hardware.

Colored handle grip and trim: ■

Spec: 15' (65" to 180")
3 sections of 60" each
20' (84" to 235")
3 sections of 78" each

Packaging: 10/case

eHANDLE

PART#
eHANDLE72 (72")
eHANDLE48 (48")

Heavy Duty aluminum telescopic handle. Lime green removable grip. Fits ePOCKET, TAB, HOOK, WALLWASH & MFLEX frames.

(interchangeable handle sets designed for color coding)

Spec: Telescopic lengths
#eHANDLE72 = 39.5" to 72"
#eHANDLE48 = 26.5" to 48"

Packaging: 1/polybag - 12/case

Exclusive Pocket Backing

eTROWEL

PART#
eTROWELb (blacklight)
eTROWELw (LED white light)

The first trowel with pocket mop functionality. Color coded hand grip, built in scraper and black light function for detecting germs.

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

Patent Pending

eWALL

PART#
eWALL

eWall™ frame boasts 360° swivel frame, with pocket mop functionality. Color coded hand grip, built in scraper and black light function for detecting germs.

Spec: 4" x 9"

Packaging: 1/polybag - 10/case

Patent Pending

eTROWELPAD

PART#
eTROWELPAD B/R/G/Y

Used for low to heavy soil levels. Specially designed for the CPI eTROWEL with quick release. Features CPI's premium eWAVE™ mop mesh backing for quick cleaning solution saturation times. Designed for Pre-Treating in CPI 4-D Cleaning Systems™.

Colors: ■ ■ ■ ■
Blue(B), Red(R), Green(G),
Yellow(Y)

Spec: 5" x 10" pad with TRIO SPLIT Technology™ and mesh backing

Packaging: 12/vacuum packed polybag - 48/case

eGLASS

PART# eGLASSB10

Used for glass and mirrors the microfiber glass cleaning Specially designed for the CPI eTROWEL with quick release.

Spec: 5" x 10" pad

Packaging: 12/vacuum packed polybag - 48/case. Patent Pending

eSCRUB

*each item comes complete with necessary mounting hardware

Industry Leading 10 Year CPI Cart Warranty

eCART™ & i-CART™ PreTreated Options

Add these PreTreated bucket configurations to your eCART™ and i-CART™ configuration. Add "PT" after your eCART™ selection. Choose from one of the available options below.

Choose any of 4 available bucket colors on order (normal color is CPI green & gray if not specified otherwise). Colors: 

What is it?

The eCART™ System is the result of a collaborative design between CPI and key customers. Over a year of their input, design engineering and prototyping has resulted in a never seen before, microfiber cleaning system. CPI wanted to ensure we produced a high quality product, so as a result the eCART™ would be manufactured through rotational molding.

The eCART™ System Benefits

- ◆ High strength rotational molded construction
- ◆ U-Channel construction provides exceptional strength
- ◆ Modular construction gives the user a choice in design and function. Build your own eCART™ based on specific uses.
- ◆ Thicker outer corners, double wall construction and uniform wall thickness help strengthen the eCART™.
- ◆ Affix your logo and message to custom branding areas on the eCart™. Let the public know who's responsible for this innovative new way to clean.

Remove the top cover to access the eCART™ interior

Keep Everything Organized

Top Cover – 2xPTMINI, Trowel, gloves, RTU bottle, clipboard/tablet, pen holder.

Handle Holders – Store 5 handles quick & easy on recessed front cavity.

Flat Shelves – Flat shelf for easy access of mops in the PTBUCKET.

Interior Storage – Store 2 PTBUCKET on the middle shelf.

45° Angled Shelf – easy access under another shelf in the PTBUCKET.

Handle bottle holder, bag, vacuum holder, cup holder.

Raised dry storage to keep items clean & dry.

5" Casters – Interchangeable casters. Mix & match swivel and fixed, change out tire type.

Store 2 PTMINI or 1 PTBUCKET on the Bottom shelf.

PART#	Includes
eCART1PT	4 PTBUCKET & 4 PTMINI
eCART2PT	3 PTBUCKET & 4 PTMINI
eCART3PT	4 PTBUCKET & 4 PTMINI

iCART1	2 PTBUCKET & 3 PTMINI
iCART2	2 PTBUCKET & 3 PTMINI
iCARTMINI1	2 PTBUCKET & 1 PTMINI
iCARTMINI2	2 PTBUCKET & 1 PTMINI

What is it?

The first of its kind, the i-mop™ solves the problems of floor cleaning systems by combining the flexibility of a floor mop with the power and speed of industrial scrubber driers. We found out that most areas are still being cleaned by mop and bucket, because other floor machines are just not flexible enough to work in most spaces. What's more the handling and operation a typical scrubber and drier doesn't fit with most users and organisations. The i-mop™ isn't just designed for cleaning, it also designed for the cleaner.

i-mop™

PART# i-mop (single battery set) – i-mop2B (two battery sets)

The i-mop™ Benefits

- ◆ Easily operated by just about anyone with a "hovercraft" like gliding experience.
- ◆ Boost the levels of cleaning productivity.
- ◆ The ability to clean multiple surfaces with additional cleaning brushes and pads.

Changing the way you think about cleaning

- Increase productivity by over 40%. The i-mop cleans 14,000 square feet per hour with a full 360 degree swivel head design.
- Tremendous torque to remove the toughest dirt with a floating head powering 50 lbs into the brush action on the floor.
- Quick change tanks, saves chemical as you don't need to throw away good solution.
- Compact design allows for cleaning small areas with the versatility in larger areas.
- Smart lithium ion battery pack technology change out quickly for continuous run time (when purchasing a 2nd set of batteries).

i-mop™ Service Box

PART# SERVICEBOX

Everything You Need, In One Box

We've gone to great lengths to ensure your satisfaction is guaranteed. Everything you need to service the i-mop™ is included in this phenomenal kit. When you use a part from the kit, simply order another and keep the pack stocked to always be up and running.

i-mop™ Accessories Extremely Versatile Capabilities

Ideal for daily maintenance or expand your cleaning possibilities with color coding, floor striping, buffing and polishing.

i-CART™ 1

PART# iCART 1

Cart built especially for the i-mop and CPI Microfiber cleaning systems with locking DOORS. Includes top cover for holding extra batteries and charger, eTROWEL™, gloves, tablet and spray bottle. Holds an extra two each fresh water and recovery tanks (tanks sold separately). Locking ball bearing casters pushes easily with heavy weight (2 fixed & 2 swivel). Roto molded construction for long lasting durability. Standard color configuration is gray and aqua.

i-CART™ 2

PART# iCART 2

Cart built especially for the i-mop and CPI Microfiber cleaning systems with locking DRAWERS. Includes top cover for holding extra batteries and charger, eTROWEL™, gloves, tablet and spray bottle. Holds an extra two each fresh water and recovery tanks (tanks sold separately). Locking ball bearing casters pushes easily with heavy weight (2 fixed & 2 swivel). Roto molded construction for long lasting durability. Standard color configuration is gray and aqua.

i-CARTMINI

PART#
iCARTMINI 1
(doors)

iCARTMINI 2
(drawers)

Single cabinet cart built especially for the i-mop and CPI Microfiber cleaning systems with locking DOORS or DRAWERS.

Includes top cover for holding extra batteries and charger, eTROWEL™, gloves, tablet and spray bottle. Holds an extra two each fresh water and recovery tanks (tanks sold separately). Locking casters (2 fixed & 2 swivel). Roto molded construction for long lasting durability. Standard color configuration is gray and aqua. GREAT COMPACT DESIGN!

Interior Storage
2 inside, easy flow drawers close flush with outside of cart to provide secure storage.

Custom i-mop™ Ramp
No lifting required. Drive your i-mop™ directly onto the front of the i-Cart™ with this slick, heavy duty ramp.

Custom Branding
Everywhere the i-Cart™ goes the public can see your brand.

5" Casters
Interchangeable casters. Mix & match swivel and fixed, change out tire type.

Tank Storage
Carry extra solution tanks to easily change out for multiple cleaning tasks.

Wet floor sign hanger

Custom i-mop™ Bay
Easily slide your i-mop™ onto the i-Cart™ and lock it in place for safe transport.

Extra Batteries
Quickly change batteries to keep your i-mop™ running around the clock.

12" Single Motor Upright
 PART# iVAC U12

The perfect work-horse for every day cleaning tasks in hospitals, schools, hotels, office buildings and much more. Great for soft and hard surfaces. Powerful 1000 watt single motor drives both the high-speed brush and max-lift vacuum. Tremendous air quality with HEPA & ULPA filtration options with low noise levels. The on-board tools and super stretch hose makes cleaning any area quick and easy. Adjustable handle slides to operator's desired height. Easy maintenance with the quick change chord, brush roll, bag and filters. Plus, CPI's 'Swap-n-Go™' entire modules change out quickly for easy up and running repairs.

Product Specifications	
Cleaning Width	12" – 30cm
Motor	1000 Watt
Brush Speed	3000rpm
Air Speed	32 L/sec
Sound Level	65dB
Tank Capacity	1.5 gallon – 6 liters

Commercial Canister
 PART# iVAC C6

Proven industry leader in canister technology, this commercial vacuum has a powerful 1100 watt vacuum motor that redirects the air flow through an exit change reducing the noise levels. A high/low switch allows for vacuuming with virtually no noise present over background levels. Engineered plastics throughout make this vacuum indestructible to even the toughest workers! Excellent filtration with multi-layer bag and cartridge exhaust. Plus, CPI's 'Swap-n-Go™' entire modules change out quickly for easy up and running repairs. Comes complete with heavy duty non-crush hose, swivel nozzle with air dampening, aluminum extension wand, multi-floor tool, crevice tool & dusting brush.

Product Specifications	
Cleaning Width	10" – 25cm
Motor	1100 Watt
Air Speed	50 L/sec
Sound Level	62dB
Tank Capacity	1.5 gallon – 6 liters

Compact Canister
 PART# iVAC C5

Compact power is what makes this vacuum so great. Carry it anywhere or wheel it around, versatility is the name of the game for the C5. Engineered plastics throughout make this vacuum indestructible to even the toughest workers! Plus, CPI's 'Swap-n-Go™' entire modules change out quickly for easy up and running repairs. Comes complete with heavy duty non-crush hose, swivel nozzle with air dampening, aluminum extension wand, multi-floor tool, crevice tool & dusting brush.

Product Specifications	
Cleaning Width	10" – 25cm
Motor	1100 watt
Air Speed	50 L/sec
Tank Capacity	1.1 gallon – 5 liter

Plus, CPI's 'Swap-n-Go™' entire modules change out quickly for easy up and running repairs. Comes complete with heavy duty non-crush hose, swivel nozzle with air dampening, aluminum extension wand, multi-floor tool, crevice tool & dusting brush.

Product Specifications	
Cleaning Width	10"
Motor	450 Watt
Air Speed	32 L/sec
Sound Level	70 dB
Tank Capacity	2 gallon - 9 Liter

Battery LED light

PART# i-light
i-light BAT (battery)
i-light CRG (charger)

A powerful flood light utilizing the i-mop battery technology. Eliminate the chord and hassles of finding plugs or electricity in remote areas. The quick release battery is rechargeable for long life. Light up an large area at any location with the i-light. Comes complete with a metal bracket for mounting on a solid surface. (you may use the battery and charger from the i-mop or purchase separately)

Product Specifications	
Wattage	15W
Lumen	1,500 lm
Run time	1 battery=16 hours 2 batteries=36 hours
Weight no batteries	8 lbs (3.6 KG)
Weight 1 battery	11.5 lbs (5.3 KG)

Battery LED Light w/ Tripod

PART# i-light TRI

We have added a convenient tri-pod specifically designed to hold the i-light. The i-light is a powerful flood light utilizing the i-mop battery technology. Eliminate the chord and hassles of finding plugs or electricity in remote areas. The quick release battery is rechargeable for long life. Light up an large area at any location with the i-light. Comes complete i-light, battery, charger and tri-pod w/ brackets.

Product Specifications	
Wattage	15W
Lumen	1,500 lm
Run time	1 battery=16 hours 2 batteries=36 hours
Weight no batteries	8 lbs (3.6 KG)
Weight 1 battery	11.5 lbs (5.3 KG)

12" Orbital

PART# i-scrub 30EM

Powerful orbital polishing/washing machine. The onboard tank pumps out your desired solution for easy cleaning. Heavy duty aluminum die cast housing will withstand the toughest task. Great down pressure will increase the cleaning efficiency. Chord detaches for easy cleanup and maintenance. Protective cover prevents water from getting into motor.

Product Specifications	
Cleaning Width	12" – 330mm
Motor	650 Watt
Speed	175 oscillating
Sound Level	50dB
Tank Capacity	1 gallon – 4 liters

8.25" Battery Edger

PART# i-scrub 21B

Powerful torque and maneuverability and a Lithium ion battery along with a sealed motor and gearbox delivers so much power in such a compact design. - 1 ePOCKET
- 1 eHANDLE

What is it?

The only microfiber laundry cleaning system specially formulated for microfiber and the environment. CPI detergents in conjunction with CPI microfiber and the CPI Smart washer help facilities become more energy efficient, conserve resources and have a lower environmental impact.

The eSmart System Benefits

- ◆ **Readily Biodegradable Surfactants**
Meets EPA Safer Detergent Stewardship Initiative (SDSI)
- ◆ **pH Balanced Formula**
Specially formulated for microfiber
- ◆ Quickly releases soil from microfiber
- ◆ Formulated for Low Temperature Washing
- ◆ **Concentrated Formula**
A little product goes a long way

Automatic Washer

PART# SMARTCLEAN

Automatic washer with a stainless steel drum, pump out, fill hose, programmable up to 24 hours, settings for: water level, wash cycles, rinse & spin cycles. Designed specifically for CPI microfiber products. Easy to use!

Spec: 110 volt, 64 lbs, 22" x 22" x 36" high.

eMICRORECLAIM

PART# eMICRORECLAIM 41 (4 - 1 gallon bottles)

A laundry detergent specially-formulated to clean heavily-soiled microfiber products that have not been cared for properly. Not more than a couple applications should be required to knock the heavy soil and built-up residue from your microfiber products. Use periodically, not intended for daily use.

Packaging: 4 - 1 gallon bottles

eMICROBRITE

PART#
eMICROBRITEII 41 (4 - 1 gallon bottles)
eMICROBRITEII 51 (1 - 5 gallon pale)

Specially-formulated to clean microfiber cleaning products. Microbrite includes a brightening agent that is safe for your microfiber and produces a clean and bright-looking result (does not contain any chlorine bleach). Strong enough for tuff jobs yet gentle on the environment, biodegradable and phosphate-free. A daily-use product.

Packaging: 4 - 1 gallon bottles
or 1 - 5 gallon pale
