

VS4 Steam Cleaner

Chemical-free, deep steam cleaning without harsh detergents

Deep steam cleaning without detergents, Tornado's professional steam cleaner is perfect for use in a variety of environments, where fast, hygienic cleaning is a necessity.

Hygienic Cleaning

The VS4 is a compact and robust steam cleaner which offers outstanding power and sanitizing benefits. Optimal cleaning results are achieved thanks to 87 P.S.I. of steam pressure which helps remove dirt from hard-to-reach, close quarter areas. Continuously variable steam volume control and the VapoHydro function (continuous regulation of the water-steam ration) means the machine can adapt perfectly to any cleaning task. The water tank can be refilled at any time, and when the water reaches the steam tank it rapidly heats up to ensure uninterrupted operation of the VS4. The temperature indicator clearly highlight the operating range by including a highlighted range area in green; once the yellow temperature needle is in the green highlighted range, the VS4 will be ready for use! The VS4 is extremely versatile since it can clean without the use of chemical and it comes with two floor nozzles (for abrasive and hygienic cleaning). Also included is a dedicated wand storage area, an integrated compartment for additional accessories, and a cord hook wich all contribute to saving space so you can conveniently store the VS4 when not in use.

Compact and Sturdy

The compact design and low weight makes the operation in tight spaces easy and reduces storage space. The steam tank casing of the VS4 professional steam cleaner is fully insulated, rust proof aluminum while the ergonomic handle and protective design enables easy transportation and protects the VS4 from cracking.

Safe and Versatile

The VS4 is ideal for use in a variety of environments, where fast, hygienic cleaning is a necessity. These environments include; restrooms, and locker rooms, kitchen and food preparation areas, and medical equipment. With a wide range of accessories, the VS4 is equally suited to detail work around kitchen appliances and bathroom fittings as it is to cleaning floors and walls. Safety features include calcification monitoring, steam pressure auto shut off, and a safety cap with pressure relief valve.

Key Features

VS4 Steam Cleaner

2 TANK SYSTEM

- The fresh water tank can be continually refilled, since the fresh water tank and the boiler tank are separate.
- Since only part of the overall volume is heated at any one time, it takes very little time for a consistent steam pattern to form.

VAPOHYDRO SYSTEM

- Thanks to the VapoHydro system, the steam level can be infinitely adjusted to the cleaning task.
- In addition to the steam pressure, the saturation can be infinitely adjusted from full steam to hot water.

HYGIENIC CLEANING

- Hygienic cleaning without the use of chemical substances.
- The avoidance of aggressive cleaning chemicals protects the operator and the surfaces treated

Attacks Bed Bugs with Chemical-Free Steam!

Versatility

The VS4 is appropriate for showers, medical equipment, kitchen fixtures, and more.

Convenience

Power cord and accessories are stored on-board the unit. A handle and transport wheels make the unit mobile from job to job.

Continuous Fill Feature

The control panel has an improved design from earlier models that allows for easy refilling and steam control.

Accessory Storage

The unit comes with a mesh storage bag for additional accessories

PRODUCT SPECIFICATIONS	
MODEL	VS4
CATALOG NUMBER	97102
